**Loki Dynamics Returns to Seawork with Exciting
New Partnerships and Innovations.**

We are pleased to announce our return to Seawork, showcasing the significant progress and development achieved over the past 12 months. This year, we are proud to co-exhibit alongside our new partners, SHOCK-WBV. Andrew Hughes, Managing Director of Loki Dynamics, also serves as Business Development Director at WBV, further strengthening the strategic alignment between our companies. Loki Dynamics has also been appointed as the global sales agent for all WBV products and services.

In addition, we are excited to unveil a series of dynamic new partnerships with industry leaders, MD Power Train, Konrad Drives, SPIIND Maritime & Defence, and SHOXS Spares. Most notably, we are proud to launch the **NEW LOKI Dynamics Seat**, a culmination of dedicated design and innovation.

We look forward to sharing these developments with you at Seawork.

SHOCK-WBV partners with Loki Dynamics, appointing them as global sales agent to deliver advanced, integrated shock mitigation solutions across marine and land sectors, enhancing safety, comfort, and performance.

Loki Dynamics and MarineDiesel, Sweden, offer class-beating 6.6L marine engines with exceptional power-to-weight, fuel efficiency, and reliability—designed for commercial, military, and performance vessels needing tailored power solutions.

Loki Dynamics partners with Konrad Marine to offer hybrid-ready stern drives, combining diesel efficiency and electric precision for durable, high-performance propulsion across commercial, military, and recreational marine applications.

Loki Dynamics introduces the SPIIND Maritime and Defence revolutionary 'Sea Calm' VR headsets to the UK, offering fast, drug-free seasickness relief across all sectors. The equipment is on course for an innovation award at Seawork.

LOKi
SEATS

Loki's **NEW** versatile marine seating launches at Seawork—engineered for durability, comfort, and ergonomic adaptability to meet the demands of professional, commercial, and leisure users on the water.

SHOXS
SPARES

SHOXS Spares Solutions, offered in the UK through a collaboration with USSC, SHOXS, and Loki Dynamics, provides cost-effective support to extend product life for commercial and professional marine users.
